Square-Hip fashion distribution
and S&M Interiors

Membership type & since
Every House member since 2010.

What do you do? I'm creative director of Cochrane Design. It's an interior architecture and design practice. We undertake projects for private and commercial clients from concept through to completion.

What are you working on right now? I am mid-way through a number of projects in the UK and Beijing and setting up a new sister company S&M Interiors. I am currently sitting on a plane back from South Africa to London after confirming designs on retail concessions and stand-alone stores out there.

What's your favourite thing about America? We love Miami. Loved it back in the day and love it now. It's got all you need for a break and a few things you don't!
